1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Kim Kanzaki on 03-01-05.

At the end of claim 15, the extra period " .." has been deleted, and is now--.—

2. The following is an examiner's statement of reasons for allowance: The examiner could not find fair suggestion for the delay stage of a ring oscillator with active load with pair of MOSFETs and selectable resistive or capacitive load in addition to all else claimed.

The references to Abbasi et al(US 6,831,492), Marbot (US 5,334,891) and Kovacs et al(5,793,239) are prior art that disclose active loading with MOSFETs, however, they do not show selectable resistive or capacitive elements coupled in series to the MOSFETs or the physical media attachment implementation in claim 23, for example.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled " Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arnold M. Kinhead whose telephone number is 571-272-1763. The examiner can normally be reached on Mon-Fri, 8:30 am -5 pm.
